

Scanners

ZI 13001

Scanners : ZI 13001

Super Scanner : ZI 13001

Handheld Metal Detector

1. For fast weapon screening and theft prevention
2. Highly sensitive scanning circuit-fast scan rate
3. Instant response-clear visual and audio alarms
4. No false alarms-digital go, no-go threshold circuit
5. Extra large coil for wide coverage
6. High sensitivity for non-intrusive body searching
7. Ergonomically designed-reduces operator fatigue
8. Electronic switching with tactile feedback
9. Three state, daylight-visible, Blue LED alarm and status indicator
10. Low field strength-no effect on pacemakers and magnetic media
11. Detects all metals, alloys and ferrites
12. Low current drain-over 300 hrs of use on 9V Duracell battery

Weapon Scanner : ZI 13002

Handheld Metal Detector

1. For fast weapon screening and theft prevention
2. Highly sensitive scanning circuit-fast scan rate
3. Instant response-clear visual and visual alarms
4. No false alarms-digital go, no-go threshold circuit

5. Extra large coil for wide coverage
6. High sensitivity for non-intrusive body searching
6. Elegantly styled molded ABS housing
7. Electronic switching with tactile feedback
8. Red, Blue and Amber 3 LED status indicators
9. Low field strength-no effect on pacemakers and magnetic media
10. Detects all metals, alloys
11. Low current drain-over 300 hrs of use on 9V Duracell battery

Metal Scanner : ZI 13003

Handheld Metal Detector

1. For fast weapon screening and theft prevention
2. Highly sensitive scanning circuit-fast scan rate
3. Instant response-clear visual and audio alarms
4. No false alarms-digital go, no-go threshold circuit
5. Large coil for wide coverage
6. Red, Blue and Amber 3 LED status indicators
6. Simple push-button operation
7. Low field strength-no effect on pacemakers and magnetic media
8. Low current drain - over 200 hrs of use with duracell batteries
9. Works on only two rechargeable, or disposable penlight cells
10. Also available for 9V disposable battery operation
