

Safegate

ZI 13007

Safegate : ZI 13007

Safegate : ZI 13007

1. Microcontroller based design
2. Quick installation – no training required
3. Automatic zero adjustment
4. Ignores external metals
5. 8 levels of sensitivity and 2 levels of alarm
6. 20 step bar-graph indicator divided into 3 alarm groups
7. 2 distinct tones for alarm level warning
8. 5 digit Intelligent counter for distinct indication of entry, exit and algebraic sum
9. Push-button operation with non-volatile memory for all levels
10. 7-segment LED indicator for sensitivity and alarm
11. Walk and Stop indicators to regulate traffic
12. Detects all metals, alloys and ferrites
13. Low field strength - no affect on pacemakers and magnetic media
14. SMPS power supply for use with 90V to 270V
15. Built in full-function battery back up for over 12 hours
16. Automatically battery charging during operation

Safegate : ZI 13008

1. Quick installation – no training required
2. Automatic zero adjustment, Ignores external metals

3. 9 levels of sensitivity and 2 levels of alarm
4. 10 step bar-graph indicator
5. 5 digit Intelligent counter for distinct indication of entry, exit and algebraic sum
6. 3 level LED indicator levels of alarm
7. Piezoelectric beeper for indication of metal
8. Walk and Stop indicators to regulate traffic
9. Detects all metals, alloys and ferrites
10. Low field strength - no affect on pacemakers and magnetic media
11. SMPS power supply for use with 90V to 270V
12. Built in full-function battery back up for over 12 hours

Safegate : ZI 13009

1. Quick installation – no training required
2. Automatic zero adjustment, Ignores external metals
3. 9 levels of sensitivity and 2 levels of alarm
4. 10 step bar-graph indicator
5. 3 level LED indicator levels of alarm low, medium and high levels of alarm
6. Piezoelectric beeper for indication of metal
6. Walk and Stop indicators to regulate traffic
7. Detects all metals, alloys and ferrites
8. Low field strength - no affect on pacemakers and magnetic media
9. SMPS power supply for use with 90V to 270V
10. Built in full-function battery back up for over 12 hours
