Water Level Meter - BFK ZI 10015

Standards:

Specification:

Water level indicator with PVC rounded cable, four-conductors, with kevlar core and external anti-scratch protective film in transparent PUR

Available Cable length: 30m, 50m, 100m, 150m, 200m, 300m, 400m, 500m.

Rounded cable diameter: 5 mm

Graduation at 1 cm intervals (directly printed on the cable itself and protected by external anti-scratching transparent polihuretane)

Probe diameter: 10 mm

Probe material: stainless steel and moulded rubber with segmented weights for more flexibility (suitable also for small diameter piezometric holes)

- Water level indication by both acoustic signal (buzzer) and LED
- Sensibility adjustment through external potentiometer
- Cable reel in antishock PVC, with brake, probe support, painted iron frame
- Power supply through 9V battery (externally replaceable)
- Optional removable hook for bailer
