Automatic Computerized Vicat Recording Apparatus ZI 1040

Standards: EN 196-3:2005 / EN 13279-2 gypsum /
EN 480-2 / ASTM C191 / DIN 1164 / DIN 1168
gypsum / NF P15/431 / BS 4550 / AASHTO T131.

Specification:

The Vicatronic apparatus, that is designed and manufactured using the most recent and sophisticated technology, is used for the initial and final setting time determination of cements or mortar pastes.

The unit is manufactured with anticorrosion and tropicalised components to be used in places with humidity not below 90% and 20°C. controlled temperature as required by EN Specifications.

The entire test is made in a fully automatic way and gives a very precise and repeatable result.

The results are printed on the incorporated printer and this eliminates the manual operations of installing and zeroing the paper graph on the drum.

The use of the appliance is extremely simplified by the guiding menu that is available in english, french, spanish, german, italian language.
